Returning to the University:

Students approved for a medical withdrawal will have a hold placed on their record to prevent registration for future terms until the student has been released from the terminally degreed licensed healthcare provider (Doctor, Psychologist, etc.) to return to the University. The terminally degreed licensed healthcare provider treating the student while on leave must complete this form verifying that the student's condition has improved to the point where it is medically appropriate for the student to return to the University and enroll in a course of study. In certain cases, students returning from a medical withdrawal will also be asked to meet with Dean of Students Office to ensure that there is adequate support as they transition back to USI.

To be completed by the student:
