SUMMARY PAGE FROM GRADUATE REPORT ON THE CLASS OF 1988

The summary material which is contained in this report reflects the responses of 65.2% of the graduating class of 1988. This includes students who graduated from December 1987 through August 1988. A total of 288 graduates of a class of 442 have volunteered information concerning employment, salary and plans for further education.

The first of two mailings was sent to graduates who were instructed to return the form when they obtained their diplomas from the registrar's office. Those who preferred that their diplomas be sent to them were asked to return the form by mail. A second mailing was sent in November to students who had not returned the first questionnaire or who had reported that they were still seeking employment at the time of the first mailing. Therefore, the information in this report is, essentially, a 6-month follow-up of the Class of 1988.

In addition to average and median salary information for graduates by academic major (see pages ii and iii) other points of interest include the following:

20.8% of the graduates who completed the questionnaire are attending or plan to attend graduate school in the near future. This compares to 17.9% that reported similar intentions in 1987.

67.7% are employed in positions related to their academic majors or career objectives, compared to 62.9% in 1987 and 58.2% in 1986.

11.1% were unemployed and looking for work as of November 1988. 10.7% were recorded in this category one year ago.

14.6% were underemployed (i.e. working in a field unrelated to their career goals.) This figure was 12.1% in 1987.

Of the graduates who are employed, 25% indicate that their initial employment was the result of direct application to the employer. 20.1% received their initial job lead from either the University Placement Office, a faculty member or as the result of a co-op assignment or internship. The rest received the key referral from family or friends (13.9%), by answering a classified ad (6.9%) or through an employment agency (2.4%).

Graduates who secured a new position as a result of completing their degree received an average starting salary of \$17,338, up from \$16,089 in 1987.

Graduates were also asked to report which of the services offered by the Placement Office they had utilized while undergraduates. A detailed report on usage by department and division is available upon request from the Placement Office in UC 208.

DIVISION OF ALLIED HEALTH

CERTIFICATE IN DENTAL ASSISTING (Surveys returned: 6)

Dr. George Giorgio	Dental Assistant	Assisting doctor and patients	11,440
Dr. Randy Brown	Dental Assistant	Assisting doctor and patients	unknown
