EXECUTIVE SUMMARY

The summary material contained in this report reflects the responses of 67.2% of the graduating class of 1991. This includes students who graduated from December 1990 through August 1991. 459 graduates of a class of 683 have volunteered information concerning employment, salary and plans for further education.

The first of two mailings was sent to graduates in June 1991. A second mailing was sent in November to students who had not returned the first questionnaire or who had reported that they were still seeking employment at the time of the first mailing. Therefore, the information in this report is, essentially, a 6-month follow-up of the Class of 1991.

In addition to average and median salary information for graduates by academic major (pages iii and iv), other points of interest include the following:

EMPLOYMENT RATES:

- A. 415, or 90.4% of the graduates are actually in the job market. Of the remaining 9.6%, 7 persons (1.5%) are unemployed by choice. The remainder are pursuing graduate degrees.
- B. 64.3% of the above 415 graduates have secured new positions as a result of their degree; 29.6% are employed in the same position that they held prior to graduation. The remaining 6% are unemployed.
- C. An equally important issue, however, is the number of graduates who are employed "in their field."
 1. Overall, 74.5% of the 90-91 graduates in the job market (those employed, plus those currently seeking employment) are employed in positions related to their academic majors or career objectives. In light of the national economy, this number compares favorably to 81.6% in 1990 and 73.4% in 1989.
 2. 14.2% are underemployed (i.e. working in a field unrelated to their career goals.) This figure was 9.4% in 1990, but is still an improvement over the 18.1% reported in 1989.
 3. 6.0% are unemployed and looking for work. The latter figure compares to 8.1% in this category one year ago.

CONTINUED EDUCATION:

- A. 14.7% of the bachelor's degree graduates who completed the questionnaire are attending or plan to attend graduate school within a year of graduation. This compares to 16.8% reporting similar intentions in 1990.

Business	10%	Liberal Arts	18%	Science/Tech	22%
Educ/Human Serv	12%	Nursing/Hlth Prof	50%		

- B. Among recipients of associate degrees, 32.1% are currently completing requirements for a baccalaureate degree.

- C. 6 (1.7%) of the 361 bachelor's degree recipients are pursuing requirements for an additional B.S. degree.

JOB SEARCH STRATEGIES

- A. Of the graduates who are employed and reported the source of the lead which resulted in their initial employment following graduation, 35.1% indicate that employment was the result of direct application to the employer. 25.3% received their initial job lead from either the Placement Office, a faculty member or as the result of a co-op assignment or internship. The rest received the key referral from family or friends (26%), by answering a classified ad (10.9%) or through an employment agency (2.8%).

SALARY STATISTICS (Continued on pp. iii-iv)

- A. Baccalaureate degree graduates who secured a new position as a result of completing their degree received an average starting salary of \$19,186, down from \$19,258 in 1990. Associate degree recipients (excluding ASN graduates, whose mean salary exceeded \$25,000/year) averaged \$20,195.
- B. Individuals seeking salary information regarding Master's degree recipients should refer to the tables on pp iii-iv.

PLACEMENT OFFICE USAGE:

- A. Graduates were asked to report which services offered by the Career Services & Placement Office they had utilized as undergraduates.

Part-time Placement	16.3%	Resume/Interview Asst.	26.8%
Graduate Placement	50.3%	Job / Career Counseling	16.1%
Co-op / Internships	12.0%	Career Resource Center	27.0%

- B. Not surprisingly, there is a great deal of variety in the services sought by students from different academic majors.

School	Percentage utilizing 1 or more services	Most frequently utilized services
Business	79%	Grad Plcmt/R-I Couns/Career Lib
Educ & Human Serv	83%	Grad Plcmt/Res-Int Counseling
Liberal Arts	64%	Graduate Placement/Internships
Nursing & Hlth Prof	12%	PT Placement/Career Library
Science & Eng Tech	66%	PT Placement/Graduate Placement
Master's (all schools)	53%	Graduate Placement
