

# University Athletics Council

Data Dashboard: Spring 2014

UNIVERSITY OF SOUTHERN INDIANA

The University Athletics Council was established in 2010 to provide oversight for USI intercollegiate athletics, support the development of excellence in USI intercollegiate athletics, and serve as an advisory council to the president. We are pleased to present the 2013-14 Athletics Council data summary to the university and the community. For more detailed information about the information in this brochure, visit our website at [www.usi.edu/athleticscouncil](http://www.usi.edu/athleticscouncil).

## Academics

### Grade Point Average (GPA)\*

USI men and women athletes compete in a variety of spring and fall sports sanctioned by the NCAA at the Division II level and participate in the Great Lakes Valley Conference. In the 2012-2013 academic year, USI's undergraduate student-athletes had a combined GPA of 3.198.

Data for the following table are captured at end of spring semester and include aggregate tabulation of athletic roster quality points divided by cumulative tabulation of credit hours per roster. For student-athletes who competed in Fall but not Spring (graduated in December or leave team/institution), their fall grade point average is considered as part of the overall team grade point average.

Data used for the following table include student-athletes on an athletic roster on USI census day and/or any student-athlete that has competed for a team/sport by census day based on 291 student-athletes.

Sport	Participants	Aggregate GPA 2012-2013
Baseball	39	2.950
Men's Basketball	16	2.883
Men's Cross Country	50	2.962

## College and Classification\*

The following two charts show percent of USI student-athletes by college and their classification by grade (N=291).

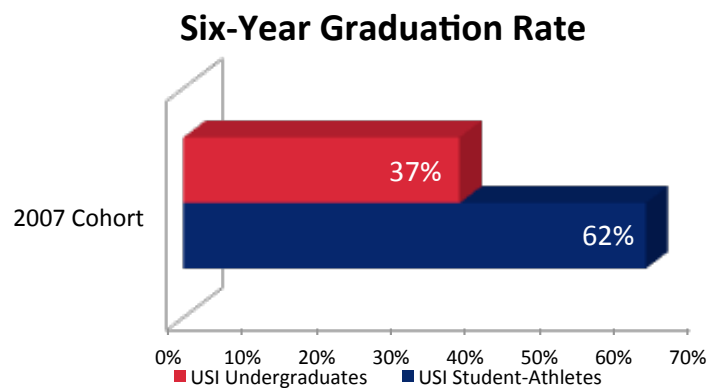

## Academic Success & Federal Graduation Rates†

The *Academic Success Rate* (ASR) is compiled by each NCAA Division II institution and is used as an indicator of academic success for college student-athletes. The ASR includes transfers into an institution in the calculation of the rate, but removes from the cohort students who left the institution while academically eligible to compete. Additionally, the ASR includes all non-scholarship freshman student-athletes on the roster on the first date of competition. The *Federal Graduation Rate* (FGR) is compiled by the US Department of Education and is used as an indicator of academic success for college student-athletes. FGR measures the percentage of first-time, full-time freshman who graduate within six years of entering their original four-year institution.

## Graduation Rate\*

The chart below compares the six-year USI graduation rate between all USI students and USI student-athletes. These students began in 2007 and graduated by August 2013.

# Student-Athlete Welfare and Equity

## Scholarship Equivalencies<sup>†</sup>

Based on 2012-2013 USI data reported by the Great Lakes Valley conference (GLVC), there are 26.69 total scholarships for male student-athletes in six sports at USI for an average scholarship equivalency of 4.45. There are 30.72 total scholarships for female student-athletes in seven sports at USI for an average scholarship equivalency of 4.39. The following two graphs outline average scholarship equivalences and total scholarship equivalences by gender.
