## Frequently Asked Questions

### **How much does it cost to port or convert?**

Portability has smoker and non-smoker rates. These rates may be different than the rates used in your employer's Group Policy. Conversion rates are based on your state of residence and your age when you apply for coverage. Please contact The Standard for detailed rate information.

### **Are there administration fees for porting or converting?**

For portability, administration fees are built into the rates. For conversion, there is a \$40 annual fee in addition to the premium. Additional fees will be added if you select a billing schedule other than annual.

### **What is my responsibility for the Employer Statement?**

Your employer is responsible for completing the Employer Statement and returning it to The Standard. If your employer does not already have an Employer Statement form, you may forward the copy we have included in your application. In any case, if you decide to apply for these benefits, it is a good idea to let your HR department know.

### **There are two applications – should I complete both?**

No. Please complete only one form for the product you wish to purchase and recycle the other application. Being thorough when completing your application can help avoid processing delays.

### **How do I calculate my premium and how much should I send in with my application?**

To calculate your premium, locate the premium rates on Page 2 of either application and follow the instructions provided.

For portability, one full quarter's premium is required before your coverage can become effective. For conversion, at least 2 months of premium is required before your policy can become effective. Please use a check when sending your premium, as we are unable to accept credit or debit cards.
