

Graduate Certificate in Post-Acute Care (PAC)

Offered by the College of Nursing and Health Professions, the **100% online** Graduate Certificate in Post-Acute Care will ensure you develop the knowledge and leadership skills to advance in your career in the long-term care industry.

100% ONLINE

Program Delivery

Courses within the certification are offered entirely online using a learning management system. Access to a reliable computer with internet access is required.

Program Goals

Provide a specific curriculum that allows students to acquire theoretical and practical understanding of the post-acute care setting. Demonstrate application of relevant concepts through project-based learning techniques. Develop an appreciation of age friendly communities and how leaders in PAC can promote inclusion, independence, quality of life, and empathy to the aging population.

GRADUATE CERTIFICATE IN POST-ACUTE CARE

Program Curriculum & Design

The program is cohort-based, with multiple start dates. The accelerated program consists of four (4) courses, each of a seven (7) week term. Courses are designed using the Quality Matters Rubric Standards based on best practices and research for course design. Students must complete all four (4) courses for PAC concentration: Interdisciplinary Perspectives on Aging; Health Policy & Aging; Regulatory Standards in Post-Acute Care; and Finance and Post-Acute Care. The program is a twelve (12) credit hour, post-baccalaureate certification.

Program Benefits

Our affordable & accelerated program is designed to benefit individuals who are aiming to achieve a certificate in PAC within 2 semesters. Through our 100% online program, you will become an integral part of a PAC network within the university and within healthcare organizations through focused and flexible study addressing actual healthcare matters. A unique characteristic of this program is a curriculum in which learned concepts are applied to project-based assignments.
