

Graduate Certificate - Administrator-in-Training Residency

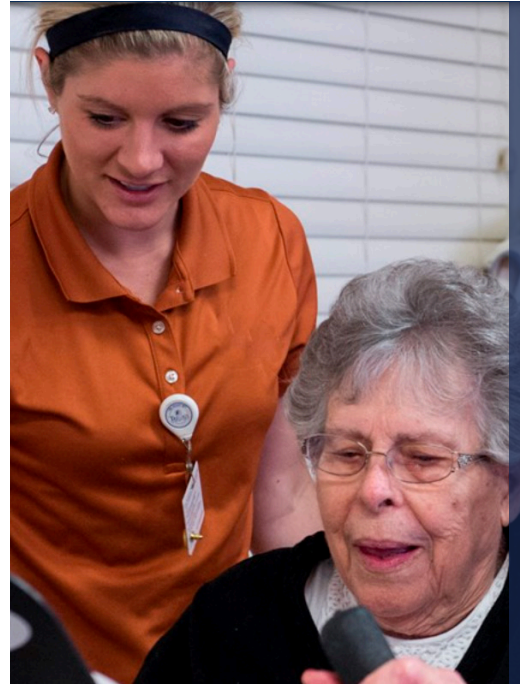

Offered by the College of Nursing and Health Professions, the Graduate Certificate - Administrator-in-Training (AIT) Residency will complete the necessary requirements for eligibility for Health Facility Administrator licensure in Indiana. This hands-on experience consists of 1040 hours of AIT residency in a long-term care facility, along with USI faculty led licensure examination preparation. The students will be applying and demonstrating learned knowledge to actual post-acute care situations in the health care industry with AIT Preceptor guidance.

Areas of Focus

- Management, Governance, & Leadership
- Human Resources
- Finance/Business
- Environment
- Patient/Resident Care

Program Delivery

This residency will be fulfilled in a long-term care facility, working alongside an experienced Certified AIT Preceptor, for 1040 hours for no less than 6 months and not to exceed 12 months.

AIT RESIDENCY

Program Curriculum & Design

The AIT residency consists of the state required 1040 hours of an educational residency experience, enabling the student to work alongside an experienced and highly qualified Indiana Health Facilities Administrator as their AIT Preceptor. In addition to gaining valuable knowledge and real-life experience in a post-acute care setting, the student will be applying learned concepts to actual nursing home processes. The student will receive ongoing mentorship throughout the residency as well as licensure exam prep instruction from USI faculty. The AIT residency program is a nine (9) credit hour post-baccalaureate program.

Program Benefits

Upon completion of this residency, candidates will be eligible for the National (NAB) and Indiana Health Facility Administrator exams.
