## Fall 2018 ETS-Proficiency Profile - Overall Scores

USI administers the ETS-Proficiency Profile (ETS-PP) to freshmen and seniors each fall on Assessment Day. The ETS-PP measures student aptitude in seven skill and content areas: critical thinking, reading, writing, math, humanities, social sciences, and natural sciences. In fall 2018, the ETSPP was administered to 1,611 first-time freshmen and 685 seniors who took the assessment as freshmen.

| USI Avg |  | National Avg |
| :--- | :---: | :---: |
| ETS-PP (Score Range 400-500) |  |  |
| Freshmen | 440 | 437 |
| Seniors | 446 | 447 |

Compared to the national results, USI's freshman and senior average scores were at the $56^{\text {th }}$ and $52^{\text {nd }}$ percentiles, respectively. Freshmen average scores have remained consistent and above the national average for the last five years.

## Fall 2018 ETS-Proficiency Profile - Classifications

The ETS-PP also measures proficiency in reading, writing, and mathematics at three levels of increasing ability. The charts below display the percentage of students that scored as 'proficient' at each skill level compared to national data. It is notable that USI freshmen demonstrated proficiency rates at or above the national rate in all areas. Seniors demonstrated above average rates in Writing Proficiency Levels 1 and 2.

## Core 39 - Assessment Overview

In the fall of 2018, assessment of Core 39 began the third year of its three-year cycle. Throughout the cycle, each course is assessed on the outcomes approved when it was accepted as part of the core curriculum.

## Core 39 - Collection and Results

During the 2018-2019 academic year, all student learning outcomes were assessed.

## Ways of Knowing

- Outcome 1 - Students will be able to utilize problem solving through design, evaluation, and implementation of strategies to answer an open-ended question or achieve a desired goal.
- Outcome 2 - Students will be able to explore topics by applying methods of inquiry and analysis, namely the collection and deconstruction of information, to gain deeper understanding and draw informed conclusions/ judgments.
- Outcome 3-Students will be able to understand the need for information and demonstrate proficiency at identifying, locating, evaluating, and using that information for the problem at hand effectively and responsibly.
- Outcome 4 - Students will be able to design and execute a performance that makes learning observable, bringing together knowing and doing.

## Core 39 - Looking Ahead

In the 2019-20 academic year, the Core 39 Committee will begin compiling academic departments' responses to assessment data collected for each course to design strategies to improve student learning outcomes. The information collected will be used by the committee to identify effective instruction practices for Core 39 and the findings shared with faculty in its annual report to Faculty Senate and in collaboration with the Center for Excellence in Teaching and Learning.

## USI Faculty Type

The overall count of faculty has declined since 2014 as result of increased FT Faculty hires and a reduced count of PT Adjuncts.

| On Track | 47 | 37 | -11 |
| Non-Tenured | 37 | 40 | +3 |
| Clinical Track | --- | 1 | --- |

The increase in tenured faculty and decrease in on-track faculty is due to (1) faculty reassignment to the clinical track, which was introduced in 2018 and (2) faculty successfully earning tenure.

## USI Faculty Degree Type

The percentage of full-time faculty with a terminal degree has increased compared to 2014.

## USI Faculty by College

New academic programs and variations in the popularity of certain majors have resulted in changes in faculty counts by college.

## Fall 2018 USI Faculty by College and Faculty Type

The colleges of Liberal Arts and Nursing \& Health Professions employ a significant percentage of part-time faculty. University Division depends heavily on USI employees to teach UNIV 101 courses for new freshmen.
